A long time ago... In our galaxy...

Decades after the defeat of the Evil Empire, EARTH and MAR faces a new threat from the Militarised ARMY Z.
For many years, ARMY Z have been experimenting on human subjects to create a powerful mutants army in order to help them conquer the two planets.
With their powerful forces. ARMY Z quickly overpowered the resistance on MAR.

To protect THE TWO PLANETS from this powerful threat. Master spy Lake Walker must return from his exile to join the war...

This is the best MAR WAR game ever, the series has never been so bug free before 10\/10 would lick again.. A confession: yes, I knew full well what I was buying when I forked out my 49c for this (on sale, 'natch). A reviewer's gotta review: I review, therefore I am.

Did I honestly expect that I'd give this product a thumb-up? Of course I didn't. In fact, I would've been gob-smacked if I was in the present process of coughing up a POSITIVE review. (That said, I didn't expect it to be THIS bad...)

Look at the title, for frig's sake: MAR WAR. First bad sign. Now look at the screenshots. Yep: another GameGuru game. Now look at the pric...HOLY SHAMOLIE! They actually have the gall to ask FIVE BUCKAROONIES for this steaming load of b*llocks, in the CURRENT YEAR no less! Well, colour me putrid and call me Gertrude. That's really quite silly, that is.

TL;DR: it's utter BALLS. Possibly the WORST GameGuru game I've ever played, and trust me, that's truly saying something. Medals for bravery need to be promptly issued to anyone with the mettle to get past the first five minutes of "gameplay".

Verdict: 0.1\/10.
